

universal remote controls

Tired of one-dimensional remotes that don't do the job? Check out these options that add control and flexibility to your home system.

UNIVERSAL CONTROL

- Easily learns complex commands from your existing remote
- Pre-loaded with over 1,000 manufacturer codes
- Favorite Channels button remembers up to 40 TV channels
- Controls up to 10 components
- Handy LCD screen
- Illuminated keypad
- DVD guide for quick and easy setup
- UHF capable with MRF-100B (sold right)

RF-20 UNIVERSAL REMOTE CONTROL

#7500075 S&H \$10 \$94.95

ADD THE POWER OF UHF

- Turns the RF-20 (sold left), RF-10 and RF-30 Universal Remotes into UHF remotes with a range of 50-100'
- Works through doors, walls, cabinets and floors inside and out
- For equipment that's not line-of-site with the MRF-100, use the 6 included mini flashers to send the commands
- Includes mounting kit, power supply, 6 mini flashers with 10' wire leads and Quick Setup DVD tutorial

MRF-100B RF EXPANDER

#7500076 S&H \$8 \$69.95

CORDLESS PHONE ON ONE SIDE— UNIVERSAL REMOTE ON THE OTHER

Keep your remote close and your phone closer. This handheld device does double duty!

A 2.4 GHz cordless telephone with base unit boasts a Universal IR remote control on the flipside. Phone features include Caller ID*, Voice Mail*, Call Waiting, speed dial, speaker phone, headset jack, internal antenna and large LCD screen. Low battery indicator lets you know when the battery pack needs recharging.

The Universal IR remote control operates up to six different components—DBS satellite system, cable set top box, TV, VCR, audio components and more.

MY ONE REMOTE™

#3000057 S&H \$10 \$29.95

*Caller ID through phone company required.
Voice Mail requires subscription to message service.

NEW

UNIVERSAL REMOTE FOR MPEG-2 FTA RECEIVERS

This great universal remote control works with most FTA receivers and your other components—TV, DVD player, VCR. Clear the clutter and get the convenience of one universal remote instead of many. Great price too!

MULTI-SAT UNIVERSAL FTA REMOTE CONTROL

#7500078 S&H \$8 \$29.95

Works with:

Ariza, Black Bird, Comanche, Conaxsat, Coolsat, Coolsat, CW-600S Premium Captive Works, Digiwave, Evolution XO.01, Extremevision Magnum, Fortec, Homesat V6, Ivisionsat, Mvidea, Neosat, Neusat, Orasat, Pansat, Sonicview, Viewsat

EASIER TO READ, EASIER TO USE

- Controls up to four components—TV, DVD, VCR, cable box, even DBS satellite systems
- Extra large easy-to-read and easy-to-push lighted buttons
- Retains codes during a battery change—no need to reprogram
- Simple to program
- Requires 2 AA batteries (not included)

HYTEK BIG BUTTON UNIVERSAL TV REMOTE

#7500050 S&H \$8 \$49.95

2 1/2" W X 9 1/2" L X 1 1/4" H
and just 9 ounces!

BIG LIGHTED
BUTTONS

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling.

DID YOU KNOW?

Many satellite receivers work exactly the same but were labeled under different companies. When looking for a replacement remote or operating instructions for your receiver, check the list below for a suitable replacement.

Older analog receivers can still be a useful part of your satellite system. Many people use their old analog receiver as a dish positioner for their system.

If you have this receiver:	Use this remote:

wireless video senders

Send audio and video from one location to another without expensive wiring or unsightly cables. Lose the wires and gain freedom.

VIDEO SENDERS

Video senders use wireless technology to send video and audio from one location to another. The transmitter connects to your video and audio source, and the receiver links to the TV that receives those signals. No expensive wiring or unsightly cables and no additional equipment to buy. Plus you can do this job yourself!

UP TO
300' RANGE

STEREO

5.8 GHz

WIRELESS CONTROL

Wireless technology sends color video and stereo audio from one location to another. Plus it allows your existing remote control to operate a video or audio source from another room.

- Stereo audio/video sender great for home theater
- Perfect for DVD, TV, satellite receiver—even your PC
- Supports PAL/NTSC TV signals
- Uses your existing remote
- Directional antennas pivot horizontally and vertically
- Supports S/N Video output and stereo audio output

5.8 GHz AUDIO/VIDEO SENDER

#7500073 S&H \$14 \$199.95

EXTRA RECEIVER

#7500074 S&H \$8 \$94.95

900MHz VIDEO SENDING

Transmit a clear signal through walls and floors without stringing wires or adding expensive wiring.

- Great for enjoying satellite, DVD or VCR entertainment from any TV
- Up to 150' range
- Use as a child monitor with your camcorder

RECOTON-V900SX VIDEO SENDER (Transmitter & Receiver)

#7500020 S&H \$10 \$69.95

EXTRA RECEIVER

Don't forget the TV in the bedroom!

#7500021 S&H \$8 \$29.95

UP TO
150' RANGE

remote extenders

Turn your IR remote into a UHF remote. The transmitter and receiver plug into any outlet, allowing you to control your components from any room in the house.

EASIEST TO USE! WORKS UP TO 100'—JUST REPLACE YOUR BATTERY

- Turn your existing IR remote control into a UHF remote that controls components up to 100' away
- Works with either AA or AAA battery remotes
- Fits inside your existing remote using the included battery holder

UNIVERSAL AROUND THE HOME REMOTE EXTENDER

#7500053 S&H \$10 \$59.95

MORE WIRELESS OPTIONS:

GREAT AS A
BABY MONITOR!

TALK ROOM TO ROOM WITH NO WIRES!

- Two-way intercom system plugs into existing AC outlet
- Lock button turns intercom into a handy monitor, perfect for a nursery
- Three-channel selector for three to six stations
- Call tone and adjustable volume
- Mounts on a wall or sets on a table

WIRELESS INTERCOM

#8000056 S&H \$9 \$69.95

CONTROL OUTLETS AND APPLIANCES WITH THE TOUCH OF A BUTTON

- Turn outlets on and off with the click of a remote
- Perfect for lamps and appliances
- Simple 3-step setup (indoor use only)
- Includes one remote control and two remote outlets
- One remote can control any number of outlets and multiple remotes can control a single outlet

RS-204U REMOTE CONTROL OUTLET SYSTEM

#3200023 S&H \$8 \$39.95

FOR C-BAND
SYSTEMS

Skyvision
RECOMMENDED

PROTECT YOUR ENTIRE SYSTEM

This surge protection kit includes everything you need to protect your system from electrical storms: Panamax MAX® 8+5 Surge Protection with 8 always on outlets, Dual Grounding Block, MD-SPKP controller module and 5' of ribbon cable with connectors. You can't afford to be without this complete surge protection system.

PANAMAX M8-HT C-BAND SURGE PROTECTION KIT

Includes everything pictured above. Indoor use.
#8500045 S&H \$14 \$169.95

PANAMAX M8-HT SURGE PROTECTOR ONLY (A)

Great for C or Ku systems, DISH Network or DIRECTV.
#3000127 S&H \$12 \$99.95

PANAMAX MOD-SPKP ONLY (B)

To get complete C-band protection, you need this module. Protects from surges through the dish mover/servo wires.
#3000122 S&H \$8 \$59.95

PERFECT FOR DUAL
RECEIVER DBS TOO

ADD MORE PREVENTION

PANAMAX MOD DBSTV

Designed to protect 2 satellite lines, 1 cable TV or antenna line and 1 telephone line.
#3000117 S&H \$8 \$59.95

PROTECT YOUR INVESTMENT

Lightning can damage and destroy your system. Even electrical fluctuations such as voltage spikes and surges can instantly harm your equipment, while smaller surges will cause cumulative damage that will ultimately result in failure. That's why you need high-quality, dependable surge protection! We carry the best in the industry. Relax the next time you hear that crash of thunder.

PANAMAX \$5,000,000 GUARANTEE

Panamax will pay to repair or replace any equipment that is damaged by a power surge while properly connected to a Panamax surge protector. Ask about the \$5 million Panamax Lifetime Product and Connected Equipment Warranty.

EXTEND YOUR WARRANTY

Panamax will extend the warranty on your DBS receiver up to three years when you use any of their DBS Surge Protector products.

SAVE YOUR LNB!

Surgender is a terrific little unit that screws onto the LNB. If a power spike is picked up by the coax and travels to the dish, the Surgender will stop the surge and save your LNB. Use one Surgender per LNB.

SURGENDER

#3000105 S&H * \$14.95

SURGE PROTECTION FACT

Think about all the paths where a voltage spike from a nearby lightning strike can enter your home. Your dish has 4 actuator wires, 3 servo motor wires and at least one coax for an LNB. Now look around at all the equipment tied into those wires in some form or another—satellite receiver, big screen TV, surround sound system, DVD player. Protect your investment!

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling. * One \$8.00 S&H charge applies to up to four assorted items on this page if marked with "S&H *". Shipping and handling reduced on multiple purchases.

surge protection

From DBS surge protectors to UPS systems that provide back-up protection for your 4DTV receiver or computer system, we've got you covered!

PROTECTION FOR YOUR DBS SYSTEM

SAFEGUARD YOUR DIGITAL SYSTEM

Designed specifically to safeguard your sensitive digital satellite equipment from surges and spikes caused by lightning. Includes plug protection for eight components and coax protection for three. Indoor use.

POWERMAX 8 DBS+3 SURGE PROTECTOR

#3000115 S&H \$10 \$79.95

PANAMAX GUARANTEE

Panamax will pay to repair or replace any equipment that is damaged by a power surge while properly connected to a Panamax surge protector.

EXTEND YOUR WARRANTY

Panamax will extend the warranty on your DBS receiver up to three years when you use any of their DBS Surge Protector products. Call for details.

PROTECT ALL OF YOUR ELECTRONICS

Get affordable protection for your DBS satellite system, coaxial cable, phone or modem. SurgeStat™ indicator shows if the surge is working properly, if protection is exhausted or if the surge is not properly grounded. Eight outlets—three spaced for transformers, coax protection for two components and protection for phone/modem lines. Power switch with circuit breaker, 6' power cord, 6' of telephone cord and 3' of RG6 cable. \$100,000 Connected Equipment Warranty. Indoor use.

RCA SURGE PROTECTOR

#3000116 S&H \$10 \$34.95

Affordable one outlet surge protection. Indoor use.

#3070024 S&H \$* \$2.19

3-OUTLET WALL TAP SURGE PROTECTOR

- Surge and Ground indicator lights
- Power Rating: 15A, 125V AC, 1875 Watts
- For indoor use only

#3000100 S&H \$8 \$6.95

BATTERY BACK-UP DURING POWER OUTAGES

PERFECT FOR 4DTV RECEIVERS, COMPUTERS

Prevent data loss and system downtime. This UPS system provides 4 battery supported outlets that protect your computer, monitor, 4DTV receiver from data loss during brownout and blackout conditions. 4 additional surge suppression-only outlets provide protection for printers and other system accessories that don't need battery support. Single line TEL/DSL surge suppression protects modem, fax machine, cordless phone or other peripherals with a standard dialup or DSL phone line connection. The USB port with PowerAlert monitoring software and cabling enables safe unattended system shutdown in the case of extended power failure. The 330 watt power handling ability supports entry-level PCs for up to 17 minutes during power failures.

TRIPP LITE 550VA ULTRA-COMPACT UPS SYSTEM

#2700008 S&H \$12 \$94.95

EVEN MORE PROTECTION

The 750VA gives the same great protection as the 550VA above, but offers 12 outlets. Six outlets feature full battery support and surge suppression. Six additional outlets provide surge suppression only. 450 watt power handling ability supports entry-level PCs for up to 35 minutes during power failures.

TRIPP LITE 750VA LINE-INTERACTIVE UPS SYSTEM

#2700009 S&H \$12 \$139.95

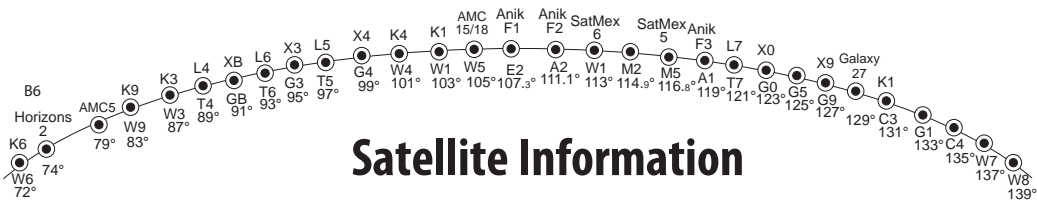

FLEXIBLE SURGE PROTECTION

The flexible design and multi-purpose functionality makes Power Squid perfect for home theater systems and computer workstations. Works great with bulky transformers that would otherwise take up valuable outlet space. Ideal when dealing with tight spots or awkward spaces, the Power Squid features 5 outlets on flexible arms, phone and DSL line protection with 1-line splitter plus coaxial/broadband line protection with gold connectors. EMI/RFI noise filtration up to 40 dB, Power Blocker® automatic shutdown technology, 3' power cord and ground indicator lights.

POWER SQUID SURGE PROTECTOR

#3000126 S&H \$10 \$49.95

books

From troubleshooting and installation help to servicing satellite equipment, you'll find a reference book to help you look like a pro.

THE HOME SATELLITE TV INSTALLATION AND TROUBLE-SHOOTING MANUAL

by Frank Baylin, Brent Gale
and Ron Long 5th Edition

Every installer and TVRO owner needs this manual. Get information on how satellite TV works, selecting the right equipment, installation, troubleshooting, system tuning and service. Learn how to tune your own system for the best picture and how to design multiple TV systems. 340 pages; 300 illustrations.

#6500015 English S&H \$10 \$39.95

#6500032 Spanish S&H \$10 \$39.95

THE FIRST STEP IN INSTALLING YOUR OWN SATELLITE SYSTEM

SITE COORDINATES FOR YOUR SPECIFIC LOCATION

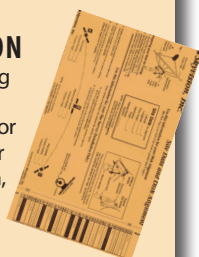

We'll rush you up-to-date, aiming coordinates for your specific location. This item can be faxed or mailed as requested. If you order a big dish system from Skyvision, it's included.

SITE COORDINATES FOR CONTINENTAL U.S.

#6500003 S&H \$2 \$12.95

INTERNATIONAL SITE COORDINATES

#6500901 S&H \$6 \$19.95

SERVICING SATELLITE TV EQUIPMENT

by Nick Beer
1st Edition

A practical guide to fault-finding, troubleshooting and servicing satellite television equipment, indoors and out, from the simplest fixed dish to fully motorized systems. 160 pages. Hardcover.

#6500062 S&H \$8 \$79.95

DIGITAL SATELLITE TV

by Frank Baylin

This guide gives you everything you need to understand all aspects of digital satellite television. Additional sections include Internet and data transmissions, digital modulation methods, worldwide scrambling methods and more. 444 pages.

#6500036 S&H \$10 \$49.95

TECH SUPPORT ONLINE

We're your #1 resource center online! From receiver installation instructions to satellite charts tech tips, you'll find a wealth of information online at www.skyvision.com.

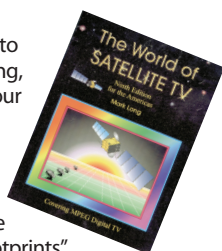

Sometimes you just need a quick tip or nudge in the right direction to fix a problem yourself. Visit us online for installation help, troubleshooting tips and more.

THE WORLD OF SATELLITE TV

by Mark Long 9th Edition

Here's everything you'll need to know about selecting, installing, operating and maintaining your satellite TV system. Easy-to-understand explanations of DBS, HDTV, digital video compression and other innovations in satellite TV. The maps, charts and satellite "footprints" provide valuable information whether you are a newcomer to satellite TV or an experienced hobbyist. 256 pages.

#6500016 S&H \$10 \$29.95

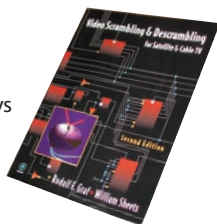

VIDEO SCRAMBLING AND DESCRAMBLING FOR SATELLITE AND CABLE TV

by Rudolf F. Graf & William Sheets
2nd Edition

An easy-to-understand book that details the hows and whys of encoding and decoding video signals. You'll find information on analog/digital conversion, phase-locked loops and more. 291 pages.

#6500064 S&H \$8 \$48.95

SERVICING TV SATELLITE & VIDEO EQUIPMENT

by Eugene Trundle
Revised Edition

The perfect hands-on guide for service engineers and installation technicians, with an emphasis on the practical business of fault diagnosis and repair. 333 pages.

#6500063 S&H \$8 \$35.95

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling.

professional tools

When out on the job, you want tools that get the job done right the first time. These meters speed up installation time and produce accurate results.

IDENTIFY SATELLITES QUICKLY

This hand's free signal strength and picture quality meter delivers professional results, locating and identifying satellites quickly and easily. The newest version of the Birdog features a clear and easy to use Spectrum Analyzer and QPSK constellation diagram for detail diagnosis of digital satellite signals. The Data Log lets you upload your installation readings to your PC. The dual display for DTV 101/119 allows you to see two satellites at one time and the DTV SWM Histogram functions shows up to 9 simultaneous Carrier/frequency measurements. The LNB/Cable test feature measures for open or short circuits in LNB and cable. Includes computer cord, AC charger, auto charger and carry case. Internal battery powers the LNB and you can expect to get over two hours on a full charge. Weighs just 2 pounds.

NEW FEATURES:

- Built-in simple to use Spectrum Analyzer
- QPSK Constellation Diagram
- Datalog uploads installation readings to PC
- Measures for open or short circuit in LNB/Cable
- Dual Display shows two satellites at one time—Also works with SWM
- SWM Histogram shows up to 9 simultaneous carrier (frequency) measurements
- More battery life (up to 2 hours)
- Recalls last satellite position

BIRDOG USB PLUS PROFESSIONAL DIGITAL SATELLITE FINDER/METER 4.0

#9000135 S&H \$28 \$599.95

EASILY TRACE CABLES

This handy tool helps you trace coax cables to make sure you've found a particular cable among a group of many. Small enough to fit in your pocket—big enough to do the job.

POCKET CD CABLE TONER TESTER

#9000101 S&H \$8 \$29.95

AFFORDABLE EASY TO USE METER

This great meter is user friendly with no complicated menus to learn. One screen displays all the information in a format that's easy to read and understand and features easy editing from the keypad. All satellites are pre-loaded in the global satellite bank and can be easily moved to the User data bank for editing. (User data bank can hold up to 100 satellites.) Return the meter to factory settings at any time with the reset feature; reset and reboot the meter without the need to enter any codes. Includes universal power supply, 12 volt vehicle charger, USB to mini USB programming cord and "Rough Neck" heavy rubber jacket to protect your meter.

FIRST STRIKE FS1 METER

#9000138 S&H \$9 \$269.95

GET MORE ACCURATE INSTALLATIONS

Speed up installation time and get better results with the Super Buddy™ Satellite Meter. Perfect for satellite internet installations too! New features include USB PC connection and current limit level of 750 mA. The positive ID feature lets you know you have the correct satellites. With the Field Guide, you see just the satellites visible to your install, with their individual transponders. It even shows the elevation and azimuth for whatever satellite you select and offers zip code look-up. Offers the ability to use while being charged with AC line cord. Includes shoulder strap, AC line cord for charging battery and cigarette lighter adapter battery charge cord.

SUPER BUDDY™ SATELLITE METER

#9000123 S&H \$14 \$679.95

NEW FEATURES

ALIGN THE SATELLITE AND CHECK STABILITY OF THE CHANNEL

With this digital meter you can view the actual channel on the screen of the meter, making it easier to align the satellite and check the stability of the channel. Never a need to recalibrate—this meter has a unique calibration system built into the meter. Every time the meter boots up, it automatically calibrates for optimum performance.

And now the Trimax features a built-in spectrum analyzer. Completely programmable, the Transponder, Frequency, Symbol Rate, Polarity and other settings can be set by the user. No need to send this meter in for an upgrade! Includes AC power charger, 12 VDC power charger, carrying case, neck strap and USB software upgrade cable.

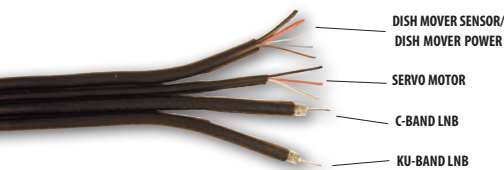

TRIMAX SM-2500 SATELLITE METER

#9000137 S&H \$12 \$499.95

cable

Don't skimp when it comes to cable. Low quality cable may cause you to lose 20% to 30% of your signal. We've test many types of cable and sell only the best!

ALL-IN-ONE RIBBON CABLE PACKAGES FOR BIG DISH SYSTEMS

Packages include: Cable and cable-fitting pak; the perfect "all-in-one" direct burial cable; 3-conductor, 20-gauge stranded for feedhorn; 2-conductor, 16-gauge stranded for dish mover power; 2-conductor, 22-gauge stranded plus bare wire for dish mover sensor; 2 RG-6 sweep tested coax, 1 for C-band, 1 for Ku-band.

ITEM #	LENGTH	S&H	PRICE
2000100	100'	\$18	\$94.95
2000125	125'	\$24	\$114.95
2000150	150'	\$27	\$139.95

2000250	250'	\$38	\$229.95
2000300	300'	\$42	\$274.95
2000350	350'	\$44	\$319.95
Custom Lengths		\$Call	\$1.00/ft.

CABLE IS A MUST: HOW MUCH CABLE DO YOU NEED?

Order cable to the length required for your location.

To determine the length required add the:

distance from the TV to your outside wall _____ ft.

distance from this point to the dish _____ ft.

from base of the dish to the LNB, plus 15' _____ ft.

Total required cable= _____ ft.

Remember to add for the vertical runs. Do NOT short yourself on cable; splicing can cause signal loss.

FOR CABLE TV AND SMALL DISH SYSTEMS

Choose from 2250MHz for standard installations or 3000MHz for applications that require a broader bandwidth and higher MHz like Dish Network and DIRECTV.

COAXIAL CABLE (75 OHM) Direct Burial

2000009	350'	\$50	\$399.95

This is a MUST for first-time installations and a great money and time saver if you are replacing your cable. Package includes: The perfect "all-in-one" ribbon cable, bellows boot (dish mover weather cover), magnetic protractor aiming tool (angle finder), cable connector kit, 6' RG-59 coax jump cable, coax crimp tool and aiming data sheet.

RIBBON CABLE SPLICE KIT

Everything you need to splice ribbon cable for a weather-tight connection. Includes RG-6 weatherproof F-Connectors, Scotch Locks, in-line splice fittings and Coax Water Seal.

#2000533 S&H \$8 \$8.95

DISH MOVER (ACTUATOR) CABLE

Cable consists of two 16-gauge stranded wires for dish mover power, and 3-conductor, 22-gauge stranded wire plus bare drain wire for dish mover sensor. For use with satellite dish movers (page 14). Call for S&H.

#2000010 (cut to length) \$.46/ft.

FEEDHORN (POLAROTOR OR SERVO) CABLE

Cable consists of three 20-gauge stranded wires in a shielded cable for servo motor. Also for use with rooftop antenna rotators (page 42). Call for S&H.

#2000058 (cut to length) \$.30/ft.

OUTDOOR CABLE ORGANIZER

Keep all your satellite and roof antenna cables safely tucked away on the outside of your house. Withstands all types of weather conditions. Paintable gray. 83/4"H x 61/4"W x 23/4"D.

#2000496 S&H \$8 \$9.95

cable

The right cable is only the first step. We also sell cable accessories designed to work as hard as your cable does to get the job done right!

ALMOST INVISIBLE CABLE CLIP
Attaches to dry wall. White only.
(Pack of 10)
#2000498 S&H * \$2.95

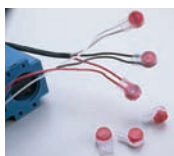

RG-59 OR RG-6 FLEX CLIPS
Attach your coax cable to any surface with these adjustable, long-lasting, flexible clips. Simply adjust to the proper size and screw into place. Works with RG-59 or RG-6. Bag of 25.

#9000061 S&H* \$5.95

DUAL RG-59 OR RG-6 FLEX CLIPS
#9000063 S&H* \$5.95

SINGLE CABLE NAIL-IN CLIPS
Tack down cable with these single nail tack clips. Bag of 10. Works with RG-59 or RG-6.
#2000531 S&H * \$2.50

LOCKTITE ELECTRICAL CONNECTORS
Self-stripping, insulated and moisture resistant from the enclosed silicone grease, 2 or 3 wire. Ideal for sensor and polarity wires. 100 pack.
#2500061 S&H * \$22.95

KEEP MOISTURE OUT!

COAX WATER SEAL

Keep your cable moisture-free with this hand moldable plastic. It seals coax fittings above and below grade. (1/2" w x 60" l)

#2000039 S&H* \$8.95

DIELECTRIC SEAL

Seals moisture out of coax. 2 oz.
#2000501 S&H* \$8.95

SEE OUR SELECTION OF TOOLS ON PAGE 36-37.

SELF-LOCKING CABLES TIES

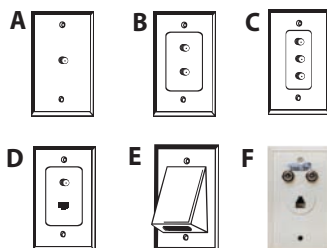

UV resistant and durable.

WHY USE COMPONENT VIDEO CABLES?

Component video cables are needed in almost every home theater set-up. Let's face it, you can't beat the quality picture these video cables provide. Component cables split the picture signal into three separate codes and combine them for the best resolution possible. A few years ago s-video and composite were the most common video signal standards. But component video cable has now emerged the leader because it's the only common consumer analog signal type which supports progressive scan and high definition resolutions, and is the standard output format of DVD players. Simply put, it can handle the demands of today's technology while delivering a crystal clear signal.

TERMINATOR

Stops signal loss from unused connector ends.

#2000495 S&H * 10pk. \$4.95

TELEPHONE WIRE

This 24-gauge indoor/outdoor telephone cable is great for residential and commercial wiring purposes. The standard, solid, four-conductor wire has excellent low temperature characteristics for installations in cold climates.

fittings and connectors

Get professional results on all of your do-it-yourself projects with the right tools and components from Skyvision. We've always said you can do it yourself!

COMPRESSION COAX CONNECTORS

Moisture is one of the biggest enemies of coax cable, causing corrosion and a compromised signal. Don't let your connectors be the weak link in your system's performance. Compression connectors deliver superior corrosion resistance and weatherability, keeping your signal strong and clear.

Skyvision carries quality compression F-connectors and compression tools. We've even put together a compression tool and fitting kit with everything you'll need to work with compression fittings. Get professional results on do-it-yourself projects with the right tools from Skyvision.

COAX STRIPPER KIT

**GET A
PERFECT

2000052	*	2pk. \$2.95
2000053	*	10pk. \$10.95

F-FEMALE TO F-MALE RIGHT ANGLE

ITEM #	S&H	PRICE
2000048	*	2pk. \$2.95
2000049	*	10pk. \$8.95

DOUBLE FEMALE IN-LINE SPLICE

ITEM #	S&H	PRICE
2000046	*	2pk. \$1.95
2000047	*	20pk. \$13.95

PUSH-ON F-FEMALE ADAPTER

ITEM #	S&H	PRICE
2000494	*	6pk. \$3.95

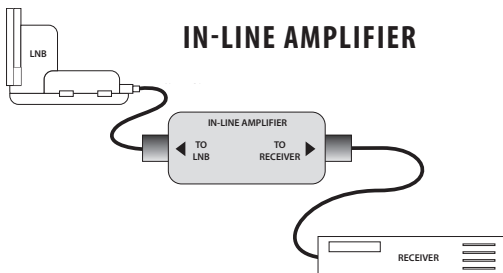

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling. *One \$8.00 S&H charge applies to up to four assorted items on this page if marked with "S&H *". Shipping and handling reduced on multiple purchases.

splitters and amplifiers

Long cables runs, both inside and outside of your home, can affect your signal. Amplifiers "boost" the signal for a perfect picture throughout your home.

AMPLIFIERS

An in-line amplifier will boost your signal 20dB, providing a clearer picture throughout your home. Works on 450-2250 MHz C-band and DBS systems. We strongly recommend an in-line amplifier for C-band cable runs more than 150' and DBS cable runs of more than 80'. Not recommended for C-band cable runs of less than 100'. For indoor and outdoor use.

#3000018 S&H * \$24.95

STANDARD UHF/VHF/FM INDOOR DISTRIBUTION AMPLIFIER

Don't let long cables runs compromise your signal. This indoor booster is designed for long, complex cable runs. 50- to 450-MHz range also covers mid- and super-band cable TV, 20 dB gain.

#3000019 S&H \$8 \$29.95

BOOST YOUR CABLE RUN

Use this power inserter to boost long cable runs or to solve Multi-Switch DC drop problems in large distribution. H and V outputs. Switch between DC to all ports and DC to LNB only.

DLS 713 DUAL POWER INSERTER

#3070008 S&H \$8 \$39.95

DIPLEXER

Combines and splits the signal from an off-air antenna and a satellite signal.

#3000039 S&H * \$16.95

DUAL VOLTAGE DIPLEXER

This voltage regulated diplexer accommodates a dual LNBF and an amplified Off-Air antenna, combining both the Satellite and Off-Air antenna signals onto a single coax cable.

#3031001 S&H \$8 \$24.95

VOLTAGE TESTER

Easily find out if there's power to an LNB or other component. Indicator lights up at +11 Volts AC/DC.

VOLTAGE TESTER

#9000115 S&H \$8 \$19.95

SPLITTERS

Splitters allow you to split the signal from your satellite receiver or television into other TVs in your home. Choose 2-, 3-, 4- or 8-way.

2-WAY SPLITTER

Split signal out of receiver to two TV sets. UHF/VHF/FM 5-900 MHz.

#3000001 S&H * \$2.95

3-WAY SPLITTER

#3000002 S&H * \$3.95

4-WAY SPLITTER

#3000003 S&H * \$4.95

8-WAY SPLITTER

#3070005 S&H * \$6.00

2-WAY HIGH FREQUENCY SPLITTER

Use high frequency splitters for a digital signal like satellite or cable. Split signal from LNB to multiple receivers. Passes power through one port. 900-2150 MHz.

#3000004 S&H * \$9.95

4-WAY HIGH FREQUENCY SPLITTER

#3000005 S&H * \$12.95

WORKS WITH
MPEG-2

4-WAY SPLITTER/ COMBINER

Combines up to four video sources to output to one TV or splits one video source to up to four TVs. 1 GHz bandwidth is perfect for HDTV digital antennas and coaxial applications. This splitter is DC and IR passing.

#3000217 S&H * \$24.95

2-WAY SPLITTER/ COMBINER

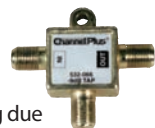

#3000224 S&H * \$19.95

2-WAY DIRECTIONAL TAP - 9 DB

Helps eliminate problems such as ghosting, reflections and phase distortion. Provides attenuation to signals leaving the line and returning due to receiver mismatch or disconnections. Suitable for CATV and off-air applications.

#3000225 S&H * \$11.95

PROFESSIONAL GRADE DUAL AND SINGLE GROUNDING BLOCKS

Protects your outdoor DBS equipment from surges.

#2000059 (dual) shown S&H* \$4.95

#2000056 (single) S&H* \$4.95

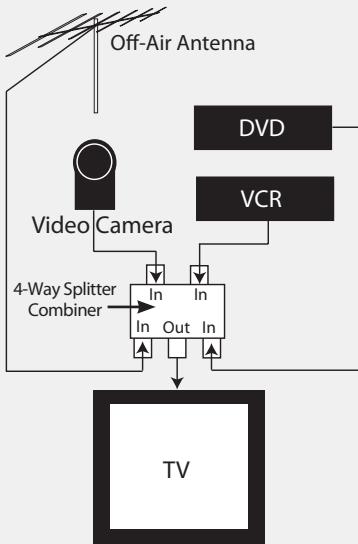

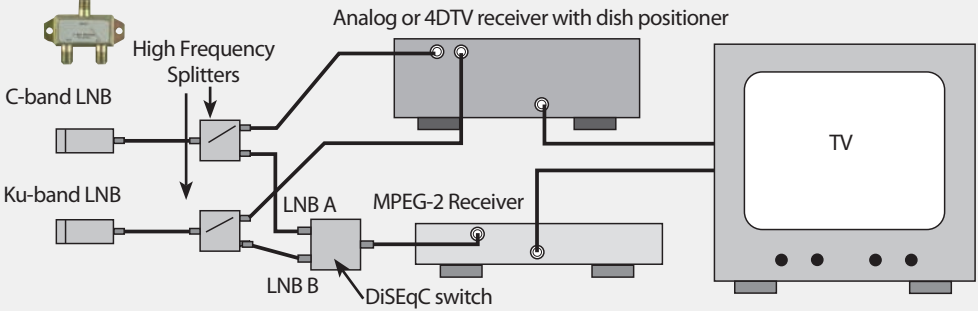

splitters and amplifiers

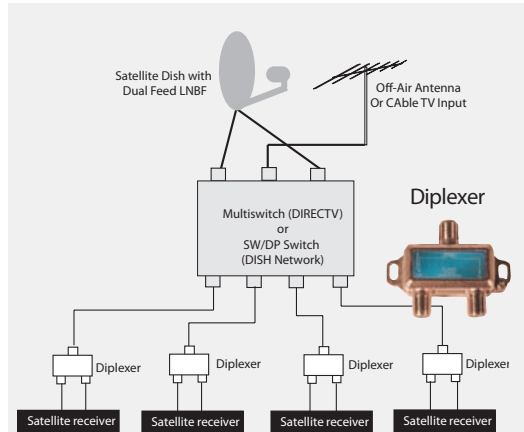

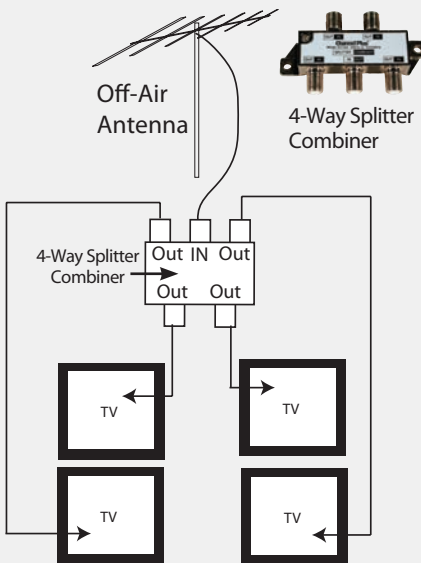

Below you'll find helpful splitter and diplexer configurations for mirroring a signal onto another TV, combining signals from multiple sources and more.

USEFUL SPLITTER AND DIPLEXER CONFIGURATIONS

Use high-frequency splitters to split the incoming C- and Ku-band LNB signals.

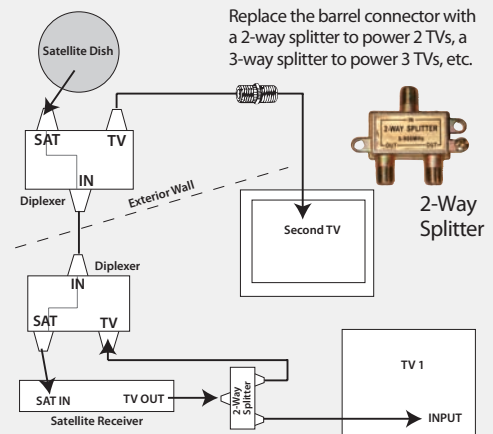

Splitter/Combiners can be used for two applications: It can combine signals from multiple sources onto one coax run (above) or split a signal from a source (below).

Choose between satellite TV and your off-air antenna with your remote. When used with a DBS dual LNB and an off-air antenna, the multiswitch combines the signals to allow use for multiple receivers. One diplexer per receiver is required when used with off-air antenna.

Mirror a second TV in another part of your home using your existing satellite receiver without running a second coaxial cable. The satellite signal is run inside to your satellite receiver, then the satellite receiver's output signal is fed right back down the same line to the outside of your home where it is tied into the existing coaxial to feed your 2nd, 3rd or 4th television sets.

tools

The right tool always makes the job go easier. We offer tools and tune-up kits to keep your system running at peak performance. You can do it yourself.

CABLE TOOL AND FITTING KIT

This kit includes both the Coax Stripper and the standard crimp tool, along with 12 RG-6 and 12 RG-59 F-connectors.

CABLE TOOL AND FITTING KIT

#9000035 S&H \$8 \$35.95

STANDARD

DELUXE

CRIMPING TOOLS

For use on RG-6 and RG-59 coaxial connectors.

STANDARD TOOL

#2500058 S&H \$8 \$14.95

DELUXE TOOL

#2500059 S&H \$8 \$24.95

RG-11 HEX CRIMP TOOL (NOT PICTURED)

#2500052 S&H \$8 \$34.95

COMPRESSION TOOL (PICTURED ON PG. 33)

#2500063 S&H \$8 \$59.95

EASILY TRACE CABLES

This handy tool helps you trace coax cables to make sure you've found a particular cable among a group of many. Small enough to fit in your pocket—big enough to do the job.

POCKET CD CABLE TONER TESTER

#9000101 S&H \$8 \$29.95

SLIM LINE™

No need to drill a hole for coax. Put it under a window or door the easy way. This remarkable product is skinny enough to avoid moisture leakage with no signal loss. 6" length.

#2000060 S&H * \$6.95

YOU CAN DO IT YOURSELF!

MAINTAIN PEAK DISH PERFORMANCE

Skyvision's Tune-up Kits let you obtain perfect alignment of C-band, Ku-band and digital systems—even ones with multiple dishes. Choose from the Universal or the Digisat 2 Satellite Finder Tune-Up Kit. These easy-to-use kits includes everything you need to do it yourself:

- Meter with coax jump cables
- Protractor Aiming Tool and Compass
- Skyvision's exclusive Aiming Data Sheet (CONUS)
- Five Easy Steps to Alignment

SKYVISION UNIVERSAL SATELLITE FINDER TUNE-UP KIT (PICTURED ABOVE)

Lightweight, pocket-size satellite finder with built-in compass, lighted meter, built-in power port and audio tone. Includes all kit components listed above.

#9000084 S&H \$12 \$69.95

UNIVERSAL SATELLITE FINDER ONLY

This lightweight, pocket size satellite finder makes precise dish set-up easy. Includes coax jump cables.

#9000083 S&H \$8 \$29.95

DIGISAT 2 SATELLITE FINDER TUNE-UP KIT

Custom designed with the do-it-yourselfer in mind. Easy to follow instructions right on the meter and an audible tone for easy satellite finding. Comes complete with all kit components listed above.

#9000080 S&H \$12 \$149.95

DIGISAT 2 METER ONLY

Easy-to-follow instructions right on the meter. Includes coax jump cables.

#9000136 S&H \$9 \$119.95

OPTIONAL POWER SUPPLY/ACCESSORY KIT FOR THE DIGISAT 2 (NOT PICTURED)

Includes leather-like carrying case, rechargeable NiCad battery, 6' RG-59 coax cable with quick connects, DC charger and AC charger.

#9000048 S&H \$8 \$39.95

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling. *One \$8.00 S&H charge applies to up to four assorted items marked with "S&H *." Shipping & handling reduced on multiple purchases.

The right tools can make all the difference. See more tools plus satellite charts, online tech support and FAQ online at www.skyvision.com.

LASER FOCAL FINDER

Collect 100% of your signal for optimum reception by aiming your feed directly into the center of the dish with the red laser beam. You will receive the maximum reflected signal for superior video and audio. Works with all feed supports except buttonhook.

LASER FOCAL FINDER

#9000018 S&H \$8 \$139.95

PEAK TWO SATELLITES AT ONCE

This meter with LCD display and selectable audio on-off tone makes it easier than ever to align multi-feed systems. Perfect for local signals at 101, 110 and 119 degrees, testing coax cable runs and checking receiver voltage output and LNBF performance. Includes self-contained, rechargeable battery, AC/DC charger, dual satellite signal strength measurement and leatherette case.

ACUTRAC 22 PRO

#9000091 S&H \$10 \$159.95

DISH ALIGNMENT INDICATOR

RECOMMENDED FOR DBS

The easy-to-use SATfinder Tool is a great way to make sure you get a perfect signal without spending a lot. Signals an audio tone when dish is perfectly aligned. Includes a handy earphone and a built-in tool to loosen coax fittings. Pocket sized.

SATFINDER TOOL

#9000096 S&H \$8 \$39.95

ALIGNING YOUR DISH JUST GOT EASIER!

On the road, camping, tailgating parties and more—setting up and aligning a dish just got easier with this alignment tool. Perfect for any temporary small dish installation. Remove the cap with built-in bubble level to reveal a handy compass. Azimuth scale markings assist in getting the job done right the first time. Simply use the Azimuth and Elevation angles from the installation menus on your satellite receiver when hooked to your TV.

SATELLOCK ALIGNMENT TOOL

#9000113 S&H \$8 \$39.95

SITE SURVEY TOOL

This handy survey tool eliminates the guesswork when it comes to dish positioning. The built in compass and clinometer help determine if the path is clear to the individual satellites before you set up your dish. Simple to use, perfect for DIY jobs or for the professional.

SATELLITE LOCATOR SURVEY TOOL

#9000111 S&H \$8 \$169.95

COMPASS AND INCLINOMETER

Compass and inclinometer in one, with sighting mirror for up to 1° accuracy. Features rotating capsule, sight line and adjusting screw for elevation readings. Azimuth and quadrant scale.

COMPASS/INCLINOMETER

#9000088 S&H \$8 \$49.95

COMPASS

Water-resistant compass with Tungsten steel needle and sapphire-jeweled bearing. Dial reads in 2° increments. Temperature range: -40°F to 140°F.

COMPASS

#9000068 S&H \$8 \$9.95

MAGNETIC POST LEVEL

The ideal tool for leveling ground poles, roof mounts, wall mounts, fence or deck posts. Works with both square and round posts. This is the only level that checks plumb on all sides of the post from one position.

MAGNETIC POST LEVEL

#9000034 S&H \$8 \$14.95

DELUXE AIMING TOOL

A great compliment tool for the site check and aiming your dish. Features a magnetic base for hands-free reading, adjustable angle pointer for marking and transferring angles and easy-read dial. Works best when ordered together with site data and compass.

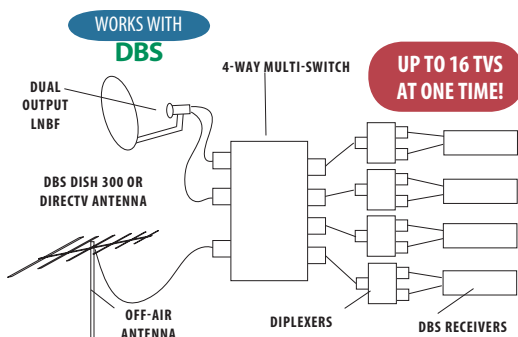

MAGNETIC POLYCAST® PROTRACTOR AIMING TOOL

#9000010 S&H \$8 \$17.95

tv throughout the house

Add versatility to your home entertainment center with our line of multi-room TV products. Send audio and video signals the wireless way.

MULTI-SWITCHES

Choose between satellite TV and your off-air antenna with your remote! When used with DBS Dual LNB and an off-air antenna, the multi-switch combines the signals to allow use for multiple receivers. One diplexer (sold below) per receiver is required when used with off-air antenna.

3X4-WAY MULTI-SWITCH

#3000040 S&H \$8 \$29.95

4X8-WAY MULTI-SWITCH

#3000044 S&H \$10 \$59.95

5X8-WAY MULTI-SWITCH

#3000132 S&H \$12 \$79.95

2X16-WAY MULTI-SWITCH

#3000045 S&H \$14 \$199.95

EASILY SWITCH BETWEEN SOURCES

Simple, manual switching between sources.

MANUAL A/B/C PUSH BUTTON SWITCH

3 coax inputs, 1 coax output.

#3000015 S&H \$8 \$12.95

MANUAL A/B SWITCH

2 coax inputs, 1 coax output.

#3000011 S&H \$8 \$3.95

MANUAL A/B SWITCH

2 coax inputs, 1 coax output. 5-1000MHz bandwidth and 75Ω impedance.

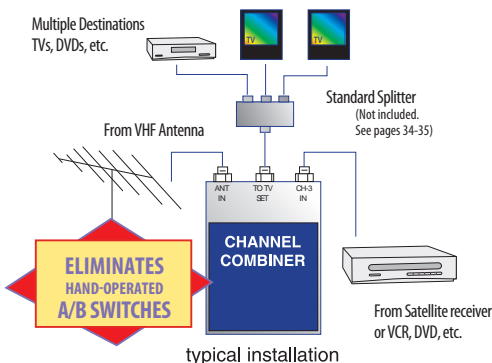

#3070023 S&H \$8 \$7.69

BOOST YOUR CABLE RUN

Use this power inserter to boost long cable runs or to solve Multi-Switch DC drop problems in large distribution. H and V outputs. Switch between DC to all ports and DC to LNB only.

DLS 713 DUAL POWER INSERTER

#3070008 S&H \$8 \$39.95

MULTIPLE PROGRAMS ON MULTIPLE TVS MADE EASY

Select from two sources—VHF/CTV or VCR/DVD/Satellite—on multiple televisions (and DVDs) around your home. Without the use of high isolation A/B switchers and elaborate switching, this is by far the simplest way to simultaneously record and view premium channels.

CHANNEL 3 AND VHF ANT. IN

#3000075 S&H \$8 \$24.95

CHANNEL 4 AND VHF ANT. IN

#3000076 S&H \$8 \$24.95

4X1 AUDIO/VIDEO SELECTOR

Connect up to 4 A/V components to a TV or home theater system with this automatic selection S-Video, Audio Selector and RF Modulator. Conveniently selects the active component automatically and the built-in RF modulator converts signal to channel 3 or 4 for universal TV use.

4X1 AUDIO/VIDEO SELECTOR

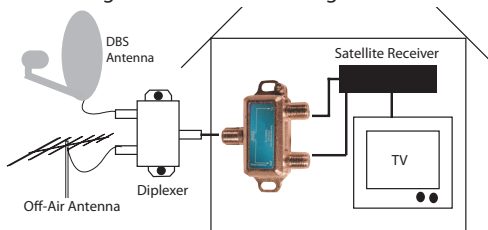

#3000261 S&H \$8 \$39.95

DIPLEXER

Combines and splits the signal from an off-air antenna and a satellite signal.

#3000039 S&H * \$16.95

Use two diplexers to run two separate signals down one coax cable simultaneously. One diplexer is used outside to combine the two signals. A second diplexer is used inside to separate the combined signals before they enter the satellite receiver, eliminating the need for extra wiring.

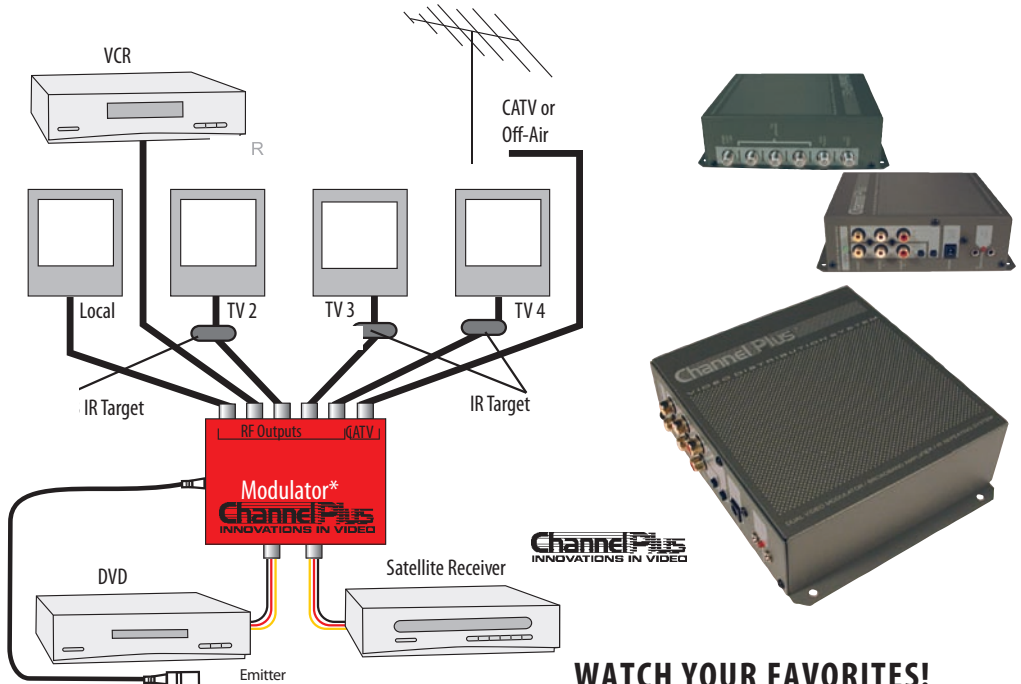

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling. *One \$8.00 S&H charge applies to up to four assorted items (2 pack, 20 pack, etc.) if marked with "S&H*". Shipping and handling reduced on multiple purchases.

multi-room tv

Watch different programs on multiple TVs...at the same time! We can do it for you with technology from ChannelPlus®. Ask about multi-room TV for your home.

MODULATORS MAKE LIFE EASIER

If you're anything like the average American, you already own several TVs, multiple DVD players and a couple of receivers. The challenge comes in how to get this signal there and that signal here while still making everyone in the house happy. Behold, the multi-channel video modulator. Read on...

*Diagram shown using ChannelPlus 3025 configuration. Your set-up may be different depending on modulator purchased and your equipment.

MULTI-ROOM TV FAQ

Just how do modulators work?

Multi-channel video modulators have multiple audio and video inputs and one RF output. A/V outputs on a DVD player, VCR or satellite receiver are connected to the A/V inputs on the modulator. The modulator is then programmed to broadcast the signals on a certain frequency. That RF broadcast is then received by the connected TV. When the TV is tuned to the programmed channel, the A/V signal of the source device is accessed. For example, the DBS satellite system is programmed to broadcast on channel 11. Turn the bedroom TV to channel 11 and you're watching what is being broadcast on the DBS satellite system. Add Emitters and Targets to control the devices, like the DVD player or DBS satellite system, and you're good to go.

The diagram above shows one example of how a modulator can work but everyone's home theater set-up is different. There are many different ChannelPlus® products available. We can find the right set-up for you.

WATCH YOUR FAVORITES!

He wants to watch sports. She wants to rent a movie. Sound familiar? Easily solve the problem with the ChannelPlus® 3025 modulator. Broadcast different sources (i.e., satellite receiver and DVD player) on television channels that you specify to up to three remote TVs throughout your home. By simply changing the channel on a remote TV, you can choose between DVD, satellite receiver, off-air antenna or other video source.

CHANNELPLUS 3025 (PICTURED ABOVE)

#3000253 S&H \$18 \$249.95

WATCH ON FIVE TVs!

Distributes video and audio from two sources such as DVD and a satellite receiver plus from an off-air antenna or cable on up to 5 TVs. Includes IR transmitter/receivers.

SONY MRD-D1 MODULATOR

#3000035 S&H \$18 \$169.95

CONTROL FROM ANY ROOM

The ChannelPlus® Target, when used with the ChannelPlus® 3025 and Emitter, makes it possible for an infrared remote to send the signal back to its source, no matter where it is. This allows you to change satellite channels, or control a DVD player from any location in the house.

CHANNELPLUS- TARGET

#3000249 S&H \$8 \$29.95

CHANNELPLUS- EMITTER

#3000250 S&H \$8 \$12.95

Skyvision's minimum purchase policy is \$20.00 plus shipping & handling.
